T-Mobile's WPS Solution Overview

T-Mobile's Coverage Analysis

Approved T-Mobile's State of Georgia Pricing

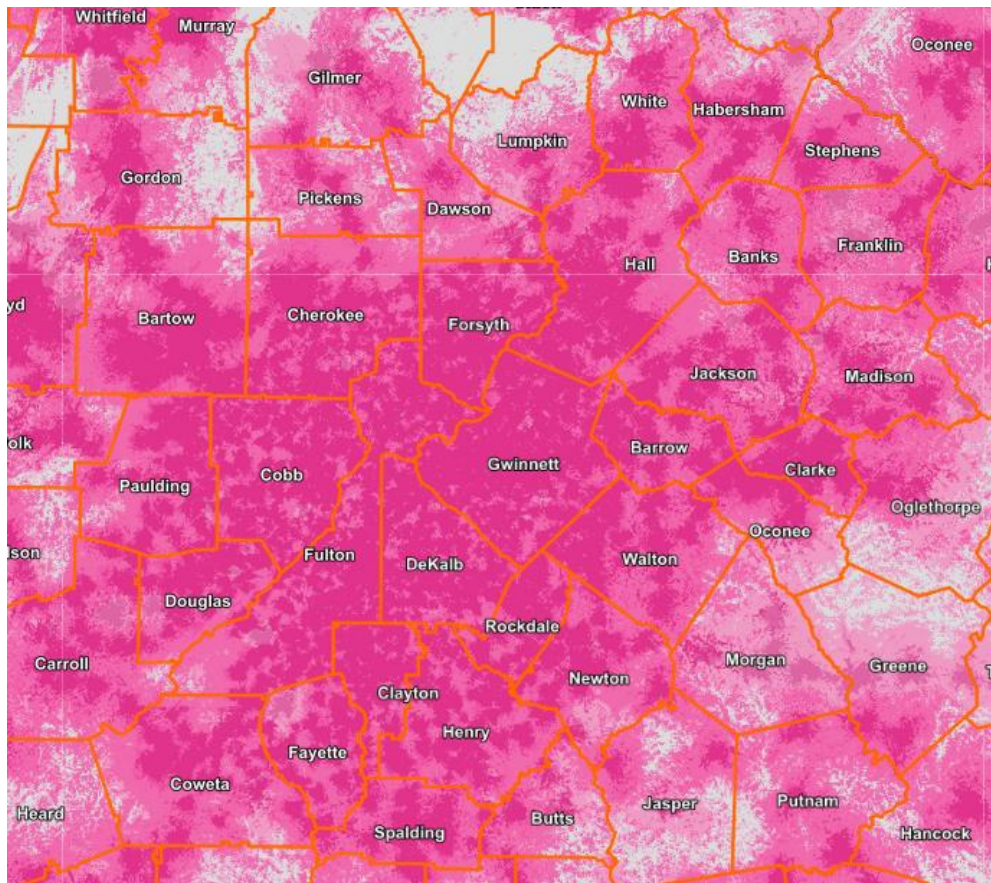

Q/A

T-Mobile's Wireless Priority Service Solution

- T-Mobile provides WPS for voice lines to all qualified agencies
 - If you are already registered for WPS and GETS services with CISA, a simple request to provide WPS at account level will be submitted on your behalf.
 - If you are not, you can register at: [Wireless Priority Service \(WPS\) | CISA](#)
- Carrier Managed WPS Mass Activation
 - With account level approval for WPS, T-Mobile will keep all of your lines provisioned with WPS and in sync with DHS Portal (GWIDS).
- All T-Mobile devices with WPS received Priority Access and Preemption
- WPS Data Priority Pilot
 - Any voice line with data plan will get WPS Data Priority – Targeted delivery by end of Q4. This will provide a minimum throughput to ensure these devices can get data in a time of congestion.
 - Sometime in Q1 of 2022, mobile internet devices will also be eligible for WPS Data Priority Pilot.

**Zones,
3,4,5,10 Are the
areas in this map
with the
strongest
coverage**
