SUBSCRIPTION TERM

The term of this SOW as described herein shall be three (3) years ("Subscription Term") commencing on the Effective Date of the Master Agreement.

The base subscription fee consists of the following components: Application licensing fee, on-going software support, and maintenance.

ON-GOING SUPPORT

ArborMetrix shall provide ongoing support, application configuration and data upload services by qualified personnel to assist GQIP leadership with report analyses and interpretation across their key quality and research areas. GQIP will provide Level 1 Support as the first point of contact for users, assisting with questions, such as access, case usage, submitting data, and confirmation and escalation of more complex issues (Level 2 & Level 3 support). In the

event of an unexpected data- or software-related issue or outage, ArborMetrix will work with GQIP and users to resolve, and support will be provided as needed.
