2023 WINTER MEETING VENDORS

Air Methods, a family of helicopter and fixed-wing critical care air ambulances, provides essential lifesaving services throughout Georgia, Northern Florida, Eastern Alabama, Western South Carolina, Western North Carolina and Southern Tennessee.

AROA is focused on improving the healing in complex wounds and soft tissue reconstruction using its AROA ECM™ platform technology unlocking regenerative healing for everybody.

Andexxa is a recombinant modified human factor XA protein indicated for patients treated with Xarelto or Eliquis when reversal of anticoagulation is needed due to life-threatening or uncontrolled bleeding.

Bioventus, a global leader in innovations for active healing, has clinically effective, cost-efficient, minimally invasive medical treatments that engage and enhance the body's natural healing processes.

Biotherapies for Life® Using the latest technologies to develop and deliver innovative biotherapies to treat serious and rare conditions such as coagulation disorders, primary immune deficiencies, hereditary angioedema and inherited respiratory disease.

ESO helps hospitals tap into the power of bidirectional data sharing with EMS. Perform comparative analysis of hospital and EMS data, increase operational efficiency, measure and improve patient outcomes.

GEORGIA NURSES ASSOCIATION The state's largest nursing association, advocating on behalf of the 170,000 nurses of Georgia.

HAEMONETICS® Haemonetics provides a suite of innovative medical technology solutions that improve the quality, effectiveness and efficiency of care, including TEG (viscoelastic testing device) and cell saver (autologous blood recovery).

JOSEPH M. STILL
BURN CENTERS, INC. JMS, a burn and wound care center, strives to give patients back as much of their lives as possible, going beyond simply surviving an injury to truly thriving after discharge.

Shepherd Center specializes in medical treatment, research, and rehabilitation for people with spinal cord injury, brain injury, multiple sclerosis, spine and chronic pain, and other neurological conditions.

Stryker is one of the world's leading medical technology companies with equipment you can depend on when saving a life is the only thing that matters.

Teleflex is a global provider of medical technologies designed to improve the health and quality of people's lives. The home of Arrow®, Deknatel®, LMA®, Pilling®, QuikClot®, Rüscher®, Urolift® and Weck®.
