**GEORGIA TRAUMA CARE NETWORK COMMISSION**

## EMS SUBCOMMITTEE ON TRAUMA

**MEETING MINUTES**  
**Tuesday, September 6, 2011**  
**Scheduled: 10:00 am until 12:00 p.m.**  
**MGA Training Room**  
**252 Holt Avenue**  
**Macon, Georgia**

---

### **CALL TO ORDER**

Mr. Ben Hinson called the August monthly meeting of the EMS Subcommittee on Trauma to order at the MGA Training Room, 252 Holt Avenue, Macon, Georgia, at 10:00 a.m.

<b>SUBCOMMITTEE MEMBERS PRESENT</b>	<b>SUBCOMMITTEE MEMBERS ABSENT</b>
Ben Hinson, Chair Subcommittee & GA Trauma Commission Member Randy Pierson – Region One Chad Black – Region Two (via teleconference) Pete Quinones – Region Three (via teleconference) Richard Lee – Region Four Lee Oliver – Region Five Blake Thompson – Region Six David Moore – Region Nine Huey Atkins – Region Ten Courtney Terwilliger – EMSAC Keith Wages-SOEMS	Jimmy Carver-Region Seven Craig Grace – Region Eight

<b>OTHERS SIGNING IN</b>	<b>REPRESENTING</b>
Renee Morgan Kirk Pennywitt Kim Littleton Russ McGee Jim Pettyjohn	OEMS GTRI EMSAC OEMS Georgia Trauma Commission

Minutes approved on 04 January 2012

### **Welcome and Introductions**

Mr. Ben Hinson welcomed all present at the meeting and requested a moment of silence be held in recognition of Mr. Mike Watts who passed away recently. Mr. Hinson recognized a quorum of the voting members were present.

### **Approval of Minutes from August Meeting**

The first order of business was the approval of the minutes from the 09 August 2011 subcommittee meeting.

### **MOTION #1 EMS Subcommittee 2011-9-06:**

**I make the motion to approve the minutes from the 09 August 2011 meeting as written.**

**MOTION BY:**  
**SECOND:**  
**ACTION:**

**BLAKE THOMPSON**  
**RICHARD LEE**

The motion ***PASSED*** with no objections, nor abstentions.

### **TRAUMA COMMISSION-FUNDED EMS PROGRAMS:**

#### **EMS Vehicle Equipment Replacement Grants 2011**

Mr. Jim Pettyjohn reported there are two outstanding grants on the FY2010 with Meriwether County and Turner County having yet to send in their paperwork. Ms. Lauren Noethen is working with them to try to find bids and they have assured the office that the proper documentation will be submitted on time.

Mr. Pettyjohn reported of the FY2011 monies that were awarded, three (3) have completed all the paperwork and the invoices have been submitted for payment; five (5) have submitted their work-plans which have all been approved and they are in the process of getting the necessary documentation to submit their invoices; and one (1) has not submitted anything but the signature page. Ms. Lauren Noethen is working with this service and they have assured us they will have everything completed by the end of the contract time.

#### **First Responder Training Grants (FY 2010 and 2011)**

Mr. Courtney Terwilliger reported that all First Responder grants have been approved with the exception of one county that recently lost their director. Sixty (60) percent of these courses have been completed and Mr. Terwilliger stated he was very pleased with the program and has received positive feedback. There are some surplus monies and the possibility of having some classes at GPSTC is being looked at with the classes being open to anyone. Mr. Terwilliger also stated that they are looking at possibly funding some First Responder Instructor Classes.

Mr. Courtney Terwilliger introduced Ms. Kim Littleton who is the new director of GAEMS. Ms. Littleton has a diverse background including being a paramedic for the past seven years. Ms. Littleton will be locating her office close to Fitzgerald, Georgia.

#### **Discussion:**

Mr. Huey Atkins questioned if there was a waiting list for the grant. Mr. Terwilliger responded, "No, we have eight services that applied for the grant that did not receive them." The grant was set for sixty classes and of those, four came back and changed their minds, so we issued those to the next four on the list.

Mr. Ben Hinson questioned whether or not once the money had been given to GAEMS, do we have a problem giving that money back to the state if we have some held over even if we have begun to

disburse it. Mr. Jim Pettyjohn responded that because it has already been invoiced it would not have to be returned.

Mr. Ben Hinson stated, "We need to consider for future grants to have something that if there is money left over that we roll it over to increasing something such as equipment, etc". Mr. Terwilliger responded, "We have been resolute that if the money has been designated for training then that is where it will be spent. As additional money becomes available, we will offer the grant to the next on the list who requested the grant."

Mr. Jim Pettyjohn questioned if the cost per student was the same throughout all the courses. Mr. Terwilliger responded that the cost per student will vary because the instructor cost is a fixed rate depending on the class size the cost would vary.

Mr. Terwilliger reported that to date there remains \$37,000 left but this amount will change as each class completes the course and submits their ending roster. Mr. Huey Atkins asked if there was a designated time for course completion and Mr. Terwilliger responded, "No". Mr. Terwilliger stated he preferred the grant be written for an "x" number of courses and then in the language of the contract we could put the surplus funds would be used for either more training or other designated areas. The contract states we will conduct sixty classes but some have not started.

Mr. Ben Hinson stated that we want to give the flexibility to get the classes done but not get in trouble with the auditors.

Mr. Terwilliger stated that we have been granted two cycles, FY2010 and FY2011, but have not started the second cycle. Mr. Terwilliger stated he will begin working on FY2011 in the next few weeks. Mr. Ben Hinson stated that we need to get an addendum for the FY2011 contract to simply document what we discussed to give Mr. Terwilliger the flexibility to push the money forward but doesn't leave it open lest we get pinged by the auditor. Mr. Pettyjohn responded that we can still touch that money because that contract is current until the end of December, and if needed we can add the FY2011 funds via amendment to the FY2010 funds. Mr. Pettyjohn stated he felt that this needs to be tied down.

Mr. Terwilliger stated that one class costs \$5,500.00 and there is a possibility to have six more classes for the FY2010 monies. Mr. Terwilliger stated the application process could begin next week for the FY2011 funds by amending and sending out the application letter and that his goal was to send out one application letter with monies left from FY2010 being moved into the FY2011 funds.

Mr. Ben Hinson stated, "It was up to this EMS Subcommittee to decide and recommend to the Trauma Commission grant criteria we have. So how do you score a service that received a grant in FY2010 if they apply for another grant?" Mr. Blake Thompson responded that if a service applies that has not before, that they get priority. Mr. Huey Atkins stated he feels that if a service applied before and didn't get it and if they apply again they should automatically go to the top of the list. Mr. Terwilliger responded that there were eight services that did not receive the grant and they will be considered first.

### **FY 2011 Trauma Care Related Equipment Distribution**

Mr. Courtney Terwilliger reported that not all the monies have been spent and there is money left over from FY2010 which will be rolled into FY2012. Mr. Terwilliger stated that once the affidavit is submitted and it is validated, the checks for reimbursement will be issued. Mr. Terwilliger confirmed that there is no money for FY2011, only FY2010 and FY2012 monies available for equipment grants.

### **FY 2011 EMS Uncompensated Care Program**

Ms. Regina Medeiros reported that the excel spreadsheet worked very well. *(Copy of excel spreadsheet attached as part of these minutes)* Ms. Medeiros reported the only feedback that she has gotten was that some services were not aware of the Uncompensated Care Grant Program and she referred them to the GTCNC website and advised them to sign up for the alert messages so they would be assured to receive upcoming grant opportunities. Ms. Medeiros stated that the money was pro-rated and if

Minutes approved on 04 January 2012

everyone meets the requirements and it is approved by the EMS Subcommittee, the checks will be processed today.

### **MOTION #2 EMS Subcommittee 2011-9-06:**

**I make the motion to approve the submitted FY2011 EMS Uncompensated Care spreadsheet for distribution.**

**MOTION BY:**  
**SECOND:**  
**ACTION:**

**LEE OLIVER**  
**HUEY ATKINS**

The motion **PASSED** with no objections, nor abstentions.

### **GEMA AVLS PROJECT**

Mr. Kirk Pennywitt presented an update on the AVLS project. *(Copy of power-point attached as part of these minutes)* Mr. Pennywitt stated that the first phase was the pilot program for Regions 5 and 6 with Phases 2 and 3 being a statewide deployment with continued improvement and additional training. For the pilot phase, 27 out of the 30 eligible agencies are participating. Gold Cross represents three (3) services so we have a 96% participation rate in Phase 1. An email was sent to Phase 1 participants that have not requested installation reimbursement in July asking that they get those invoices in within the next 30 days. Reimbursement requests have been received from seven (7) agencies for \$15,000. Six (6) agencies still have not requested reimbursement and we expect requests from three (3) of those. Mr. Pennywitt stated that Phase 3 will be closed out within the next few weeks with no Phase 4.

### **Discussion:**

Mr. Ben Hinson asked, "How much money is left for installation?" Mr. Pennywitt replied, "the funds budgeted to the original contract have been expended as of the end of August and they are now transferring over to the TCC contract as agreed."

Mr. Lee Oliver stated that it was his understanding that Region 9 will be coming up as a pilot soon. Mr. Oliver talked with Mr. Tim Jenest who manages MedStar One and Mercy that services the Savannah area and feels that they will not be participating. Mr. Ben Hinson stated he is delighted with the acceptance of the In-Motion technology and it is people that use it who will be able to show others the advantage of it. Some have found that it will do a whole lot more than initially expected and we should use these people as references to other non-participating agencies.

Mr. Jim Pettyjohn questioned how long the airtime is paid with Mr. Pennywitt responding that the airtime is paid for one year from the time the unit is received. Mr. Ben Hinson asked how much the airtime cost is annually. Mr. Pennywitt responded it is approximately \$600 annually per vehicle per agency. We have approximately 550 vehicles which would be a total cost of approximately \$350,000 - \$400,000. Mr. Hinson stated this is the kind of thing that needs to go to the Trauma Commission at the top line of the TCC before we get our split and say you have got to pay for the airtime or people will turn them off. Mr. Hinson feels we need to consider picking up the airtime expense.

### **GEORGIA TRAUMA COMMUNICATIONS CENTER UPDATE**

Mr. Jim Pettyjohn reported that due to the tragic event over the past days he will be traveling to Forsyth to begin the process of going through Mr. Watts' office. Mr. Pettyjohn stated a meeting with Ms. Karen Waters of the GHA had taken place with the goal to collaborate their 911 site and the TCC site allowing the hospitals to enter the data only once. Mr. Pettyjohn will be moving to Forsyth at the end of September and possibly into November to help with the transition and move forward with this project.

Minutes approved on 04 January 2012

Mr. Pettyjohn reported that the software, monitors, and work stations had been installed and the policies and procedures have been written and forwarded to the Attorney General for review.

Mr. Ben Hinson thanked Mr. Pettyjohn for his report and offered more assets if needed during this time.

### **GEORGIA EMS SAFEDOSE MOBILE APP INITIATIVE**

Mr. Jim Pettyjohn reported that an article appeared in the GAEMS newsletter and noted the time for September 19 – 25 where anyone in Georgia EMS can go online and download the mobile app for Droid, Blackberry, I-phone, I-Pod touch, and I-Pad free of charge. Mr. Pettyjohn will be sending out more information to the EMS subcommittee members so they can pass it on to the EMS regions for sign-up. There is a survey built-in with the agreement to participate in the free download that goes to provide feedback to the developer on how well it works or not works.

Mr. Courtney Terwilliger stated he would go ahead and put an announcement out within the next week to the EMS community. Mr. Richard Lee questioned whether or not this would be available for download for the computers in the ambulances. Mr. Terwilliger responded that it had been discussed and one goal is to have it in the ambulances but is not available at this time as a free app. Mr. Keith Wages stated that it was his understanding that the app was available but not a free service. Mr. Terwilliger reported that the application is available now for the hospitals in Regions 5 and 6 that are participating.

### **EMS FUNDING DISCUSSION**

Mr. Courtney Terwilliger stated that changes had been made to the FY2012 budget at the last EMS Subcommittee meeting and he feels that the Commission expects us to figure out what we are doing and how is it going to impact and save lives. Mr. Terwilliger feels that we need to take the time to look at the whole process and see what we want to do and what we need to do. We have six or eight months and that the whole group needs to be looking at how we can save lives.

#### **Discussion:**

Mr. Lee Oliver stated that he agrees that we need to look at it in advance and that it should be a discussion over several meetings. Mr. Oliver likes the idea of expanding the education component and there are other creative things that we can do that will add capacity to the system and enhance it. Mr. Hinson states that because of the amount of people dying needlessly in Georgia, Senate Bill 60 was passed and the Trauma Commission was formed. The solution to trauma deaths has been building more Level 1 trauma centers. Mr. Hinson feels getting good care in the non-trauma centers will save as many lives as having more trauma centers. Mr. Hinson feels that we need to go back to our guiding principles and that we need to come up with a way to spend money and defend how we spend it.

Mr. Ben Hinson states, "This is a high level of discussion that the EMS Subcommittee needs to have and how do we frame this discussion as we are trying to make improvements all over the state." Mr. Hinson feels a full day is needed to accomplish this discussion and we need to engage and stay on task.

Mr. Pete Quinones suggested that the EMS Subcommittee come up with a value proposition because he believes this is the biggest problem we are having. It is very difficult to show value and there was a motion to establish a value proposition that was passed unanimously but never made it to the floor of the Trauma Committee. Mr. Quinones feels now is the time to come up with one. Mr. Ben Hinson agrees with the term but questions how we frame that so that it will be acceptable.

Mr. Jim Pettyjohn questioned Mr. Terwilliger, "giving enough time and work through the RTAC process, would you be able to identify the EMS within your region? Will you also be able to identify the education, injury prevention, and vehicle and other needs?" Mr. Terwilliger responded that one thing they have

Minutes approved on 04 January 2012

looked at is to identify the resources of each county and then try to identify the areas to direct transport to the trauma center. Mr. Terwilliger stated the EMS culture is going to have to change significantly because for years we looked at our role as once they get to the hospital it is over. The first thing we have got to do is to get the directors to want to make those changes to give that higher level of care and once that is done, we need to make sure they have the resources. How can we help one another to get the job done? This is going to be a much more challenging decade ahead of us to be able to meet those needs. Mr. Pettyjohn responded that the place to work this out would be with a pilot project, if we are going to be changing ideas of how we do things, the spirit of the Commission and one of the benefits of the framework is to allow those discussions to happen at the local level.

Mr. Pete Quionos suggested forming a committee and Mr. Ben Hinson stated that he will appoint some people to serve with Mr. Quionos to come up with a value proposition and to come back to the EMS Subcommittee to discuss how exactly it will work and how we will get there.

# Georgia EMS AVLS Program Update

6 Sep 2011

Kirk Pennywitt  
Georgia Tech Research Institute

# AVLS Program Deployment – Overview

- Phased implementation
- Phase 1 – Pilot Program (GTCNC)
  - Initial deployment to Region 5 & 6 agencies
  - Demonstration of proof of concept
  - Establish deployment methods & procedures
  - Evaluate problems, obstacles, effectiveness, & lessons learned
- Phases 2 & 3 – Statewide deployment (GEMA)
  - Continued deployment throughout Georgia
  - Improvements in deployment procedures
  - Onsite & web-based trainings
  - Reference materials, information dissemination, outreach, newsletter, etc.

## Phase 1 Pilot Program Status (as-of 5 Sep 2011)

- 27 of 30 eligible EMS agencies participating (90%).
- Actually 27 of 28 (96%) are participating, since Gold Cross represents all 3 non-participating agencies.
- Treutlen County EMS (2 vehicles) will join the Phase 1 program.
- 196 of 238 eligible EMS vehicles participating (82%).
- 189 of 196 participating EMS vehicles online (96%).
- Requested that all Phase 1 installation reimbursement requests be submitted within 30 days of 25 Jul, 2011.
- Have received reimbursement requests totaling \$15,000 from seven agencies since 25 Jul. Have not received requests from six other agencies, although at least three more are anticipated.

## AVLS Phase 2 & 3 Deployment Events

- Two quarterly AVLS Newsletters published to-date.
- AVLS interest survey issued Feb 17, 2011.
- 65 agencies responded to AVLS interest survey, representing 521 vehicles.
- 57 agencies representing 405 vehicles immediately eligible for Program.
- AVLS Application Package sent to 57 agencies on Jun 17, 2011.
- Applications sent to 12 agencies omitted from initial survey on Jul 22, 2011.
- Phase 2 Equipment Distribution & Orientation Trainings held on Aug 5, 2011 in Atlanta, and Aug 8, 2011 in Douglas GA.
- 197 AVLS units distributed to 20 agencies during Phase 2 Trainings.
- 112 of 197 Phase 2 units (57%) across 13 agencies online as-of Sep 5, 2011.
- Phase 2 Orientation Trainings were well received and equipment distribution went quickly & smoothly.
