CALL TO ORDER

Ms. Liz Atkins called the meeting of the Georgia Committee for Trauma Excellence to order at 2:03 PM. This is being classified as an informational meeting via conference line due to 5 of 9 of committee chair members being present on the call.

MOTION GCTE 2018-11-01:

I make the motion to approve the meeting minutes from the August 16, 2018 meeting.

MOTION: Kristal Smith

SECOND: Anastasia Hartigan

ACTION: The motion ***PASSED*** with no objections, nor abstentions.

DISCUSSION: There was no discussion that followed.

Sub-Committee Reports

Injury Prevention

Ms. Kristal Smith

Ms. Smith reported that the group met yesterday and is working in task forces. This years Day at the Capital will be all about injury Prevention so all 3 task forces are working together for in planning

that. The GA COT is all set up and reserved with space for various Injury Prevention tables in the southwest wing of the capitol. There is also talk of hosting a luncheon that day and they are determining costs of this and would be prior to the event at the capital but after the morning meeting and line with legislators.

There is still work being done on the statewide resource list so if there are any items to be added to that, please send to Ms. Smith.

Registry Subcommittee

Tracy Johns

Ms. Johns submitted her registry update to Ms. Atkins. The data dictionary is still in process and there are still some draft definitions to be completed. On the year-end registry update Ms. Atkins asked Ms. Probst to address.

Ms. Probst said DI sent e-mail to everyone and to please advise if you were not in receipt of the e-mail. There will be 2 phases to the update (1) confirming all registries are current with coding and NTB requirements and (2) the State update. Both should come out by end of the year

Special Projects

Regina Medeiros

Ms. Medeiros discussed to toolkit and the need to have more volunteer support to finish this project. As of now there have been no volunteers, if you are interested in this project please email Erin at the Trauma Commission office. There are some tools, documents, and forms that we have collected. Ms. Mabry has branded them with our logo and colors and those are available in the meantime. If any centers have an upcoming ACS visit planned, it was suggested to reach out to Ms. Medeiros or any of the recent centers that have just completed their ACS visits. Ms. Atkins requested 2 volunteers and reminded the group that we are not needing them responsible for content but more so the compilation and organization and work with Ms. Mabry to add the tools to the website. Ms. Morgan requested being kept in the loop on the visits and it was suggested that she be on the team with her expertise and ACS visits.

Education Subcommittee

Erin Moorcones

Ms. Moorcones gave an education update. There are 2 upcoming TNCC courses. And there is an EMPC course being held at Habersham in February. There is a need for instructors for this course and please email Ms. Moorcones if you can help. There is a TCAR course at Wellstar being hosted next week with 50 slots. There also will be a TCRN course, please check the STN website for this. There is also the recent purchase of the STN e-library, we need to create a form for all users to sign to comply with the purchase price requirements for the state, and an MOU is being worked on for this. Ms. Atkins requested Ms. Moorcones come up with a distribution process for this. There will be an optimal course on March 13th at the Chateau Élan from 10:00 AM to 6:30.

Performance Improvement Subcommittee

Anastasia Hartigan

Ms. Hartigan has been working on the two subcommittee projects the under triage and the admission non-surgical tool kit. The next meeting is scheduled for next week prior to TQIP. The last meeting we just reviewed the new state reports and changes in those and looking at the data for over/under triage specifically. If there is anything anyone wants added to the data dictionary please send to Ms. Hartigan.

Ms. Atkins mentioned an under triage reporting tool that is a methodology that Grand Strand is using and that is an HCA facility. The criterion is a little different than the Krevari method. Ms. Moorcones has been reviewing this in a pre review/ post review perspective. This may be another helpful tool for our visits.

Pediatric Subcommittee

Kate Bailey

No report at this time.

Georgia Trauma Foundation

Ms. Lori Mabry

No report at this time.

Georgia Trauma Commission

Mr. Billy Kunkle

Mr. Kunkle reported on behalf of the Commission and covered the two recently hosted Cadaver labs in Cartersville and Macon and their successes. The next Commission meeting is next Thursday in Marietta at 10:00 AM with Metro Atlanta EMS hosting us. The Stop the Bleed program is up to 78% of schools trained and equipped and there may be an increase to this over the next couple of weeks. Gwinnett County is almost finished with both the STB program and the school bus initiative; this is a large and commendable feat as Gwinnett County is one of the largest in the nation. Mr. Kunkle gave a brief over view of the regions and mentioned that we have hired 5 RTAC coordinators across the state. Right now all are in a training phase and a get to know their region and their committee members phase. Please reach out to Mr. Kunkle or those coordinators if you need anything. The intent of these hires is to create a more sound structure and unify our team.

OEMS/T Update

Ms. Marie Probst/ Ms. Renee Morgan

Ms. Morgan gave a brief update and mentioned the time and effort Ms. Probst has put into the report about to be shared. We are growing and intend by the end of the year to add two level 4 centers. MS. Morgan is participating in the visits and re-designations and if she is needed, please do not hesitate to contact her.

Ms. Probst gave the Georgia Statewide Trauma program review report (below).

New Business

Ms. Liz Atkins

No new business to report.

Meeting was adjourned an 3:22 PM
